OBJECTIVE

I'm a goal-oriented front-end developer with expertise in HTML, CSS, JavaScript, React.js, and Tailwind.css. I'm dedicated to crafting engaging user experiences and continuously expanding my skills in software engineering

EXPERIENCE

January 2024 -
Ongoing

- **Internee as Front-End Developer**
Academia of Designing & Development
 - I created cool and easy-to-use website designs by using lots of cool features and making sure they work really well together. I focused on making everything fit together smoothly and work fast so that people enjoy using the websites
 - I worked together with Front-End developers to build a strong foundation for different websites.
 - I helped create websites that can grow and handle lots of visitors.

June 2023 - August
2023

- **Internee as Front-End Developer**
Yes College
 - Created attractive and easy-to-use web pages using React.js and Tailwind CSS during my internship.
 - Worked closely with designers to make sure the website looked great and worked well on different devices like phones and computers.
 - Learned to use new tools

EDUCATION

2020 - 2024

- **University of Agriculture Faisalabad**
BS(CS)

2020

- **Aspire college Burewala**
Intermediate (ICS)

SKILLS

- Html
- CSS
- JavaScript
- React.js
- Tailwind
- Gsap
- Framer Motion
- SQL
- Adobe Photoshop
- Corel Draw 18
- Material UI
- C
- C++
- Vb.net
- Github

PROJECTS

- **TEXT UTILS :**
Text Utils is a React and Tailwind CSS web project designed for text manipulation tasks. It features an intuitive interface for tasks like formatting, counting characters, and converting text cases. Leveraging React's component structure and Tailwind CSS's utility classes, it delivers efficient development and responsive design.
- **TO DO LIST:**
The To-Do List web project, built with React and Tailwind CSS, streamlines task organization. Users can add, edit, and delete tasks for efficient management. Its clean design and dynamic functionality offer a user-friendly experience
- **NEWS APP:**
The News app is a React and Tailwind CSS project for easy news browsing. Users can read articles, filter by category, and save favorites. It's designed to be user-friendly and responsive on any device
- **ENCRYPTED CHAT APP:**
The Encrypted Chat App, powered by React, Tailwind CSS, Node.js, Express.js, and MongoDB, ensures secure messaging with end-to-end encryption. Users can communicate privately while the platform handles data storage and retrieval seamlessly. It offers a robust and user-friendly chat experience
